Joy
Engagement
Digital literacy
Creative endeavors
Research

• How children's joy manifests in creative endeavors
• Conditions and consequences of its emergence for children's digital literacy learning and textual pleasures
Research and development programme: The Joy of Learning Multiliteracies (MOI)

• The programme is designed to promote multiliteracy among children aged 0–8.

• Entails professional development and collaboration among professionals working in early childhood education, preschool and the initial stages of primary education, as well as in the library and cultural sector.

Art – Science – Stories
